

Old Favorites in New Applications

Kitchens are changing into multi-purpose arenas where space is used to its absolute maximum. Take a look at some of the long-time Accuride products that stand the test of time in the latest kitchen applications.

Kitchen Home Office Space

Computer access in the kitchen is a practical convenience. Whether it's searching for recipes, paying bills, or monitoring the kids while they do homework, Accuride has the hardware you need to create a compact workspace that can be hidden away when not in use.

- ◆ CBERGO-300 Deluxe Keyboard Tray or standard CBERGO-200 Tray provide ergonomic keyboard access.
- ◆ The 6" 3832 is great for small drawers used to stash bills or store recipe cards.
- ◆ Models 123 or 1321 Pro-Pocket flipper door slides provide access for a chair; concealing the space when closed.

All zinc and electrocoat white finished products are RoHS Compliant.

Workspace & Appliance Garage

Take full advantage of the space with a pull-out butcher block and free up counter space with an appliance garage. Appliances are on a shelf for easy access, while wider drawers below keep trays, bowls, or utensils close at hand.

- ◆ Model 340, the "butcher block" slide, has a lock out feature to ensure a stable work surface.
- ◆ Models 123 or 1321 Pro-Pocket flipper door slides neatly hide away appliances.
- ◆ Model 3832DO provides pull-out access in the appliance garage. The detent out keeps the surface stable for use.
- ◆ Eclipse 3132EC with Easy-Close ensures storage drawers close gently.

Pantry/Food Storage

Access to pantry contents has never been more efficient with multiple pull-outs offering plenty of storage solutions.

- ◆ Model 9301 is a heavy duty side-mount solution for large pull-outs.
- ◆ Model 3600-200 provides a hidden slide solution with the added benefit of a self-closing mechanism.
- ◆ Model 3640 pocket and bayonet disconnect allows for easy removal of trash or recycle bins (not shown).
