Undermounts

Welcome to IWF 2018

For more than half a century, Accuride International has delivered the finest movement solutions for craftsmen and women around the world.

That's why we're here at IWF 2018: We want to support you with the industry's most innovative, diverse, and reliable slides, glides, and runners for fixtures big and small.

Whether you're pursuing a traditional design or an experimental one, we can help bring moving functionality into your project – without compromising its design. Look no further than our 3100 Eclipse Undermount Slides used in the display above.

Would you expect any less from Accuride?

Tips, how-to's, and Q&As

Daily Sessions

**Wed. to Fri.
10 AM and 2 PM**

Senseon Secure Access

Senseon is a revolutionary RFID access control system from the innovators at Accuride. Senseon adapts to how you work, improving the efficiency of operations while securing valuable contents.

Senseon's benefits at a glance

- Easy installation into virtually any casework, especially those in healthcare and retail environments.
- Uses compact, energy-efficient electronic locks that can withstand up to 250 lbs. of pull force.
- A lean, modular design that keeps all components hidden within the cabinet for even more design freedom.
- Grants quick access to contents via the tap of an RFID card, fob, tag, or wristband.
